## **Nickel One Resources Inc. Re-Files NI 43-101 Technical Report for the LK PGE-Cu-Ni Project in Finland**

**Vancouver, BC – Nickel One Resources Inc.** (the “Company” or “Nickel One”) with reference to the news releases dated April 5, 2017 and March 22, 2017, announced that it has re-filed a compliant National Instrument 43-101 (“NI 43-101”) Technical report (“Technical Report”) on SEDAR pertaining to the Lantinen Koillismaa PGE-Cu-Ni Project (“LK Project”) located in north-central Finland. The Technical Report shows there are no current mineral resources on the LK Project.

The Technical Report (effective date November 17, 2017), was prepared by Sean Butler (P.Geol.), an Associate Geologist with Mining Plus Canada Consulting and Ville-Matti Seppä (EurGeol.), a geologist with Pöyry Finland Oy. Sean Butler, is the Qualified Person (“QP”) within the meaning of NI 43-101 for this news release and has prepared and supervised the preparation of, and approved the scientific and technical disclosure in this news release.

About Nickel One:

Nickel One Resources Inc. is a PGE, Nickel, Copper exploration and development company evaluating the Tyko Property near Marathon, Ontario, Canada and has recently acquired the LK PGE, Copper Nickel, project in Finland. Nickel One’s objective is to efficiently advance the Tyko Project through exploration and development to a mineral resource and to continue the development of the LK project. The Company intends to build shareholder value through accretive acquisition of additional promising assets.

ON BEHALF OF THE BOARD:

President & CEO, Director “Vance Loeber”

This press release is not an offer or a solicitation of an offer of securities for sale in the United States of America. The common shares of Nickel One Resources Inc. have not been and will not be registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from registration.

Information set forth in this press release may contain forward-looking statements. Forward-looking statements are statements that relate to future, not past events. In this context, forward-looking statements often address a company's expected future business and financial performance, and often contain words such as "anticipate", "believe", "plan", "estimate", "expect", and "intend", statements that an action or event "may", "might", "could", "should", or "will" be taken or occur, or other similar expressions. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks associated with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in gold and other commodity prices; title matters; 6 environmental liability claims and insurance; reliance on key personnel; the absence of dividends; competition; dilution; the volatility of our common share price and volume; and tax consequences to U.S. Shareholders. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date that statements are made and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change. Investors are cautioned against attributing undue certainty to forward-looking statements.
